

Premium Architectural Solutions for Multifamily Living

Explore a diverse range of industry-leading brands and high-performance manufactured products.

Westlake Royal Stone Solutions

Westlake Royal Stone Solutions offers an extensive portfolio of architectural stone veneer to meet the needs of any project level, style and lifestyle.

No other material offers the depth, complexity of color, pattern, and tactile distinction as architectural stone veneer. Our product portfolio provides limitless design opportunities that suit a wide range of styles and budgets, making it easy to enhance your project's aesthetic using natural textures and authentic color palettes that are virtually indistinguishable from stone and other natural materials.

Our Added Value

Backed by decades of industry leadership and manufacturing expertise, Westlake Royal is committed to providing products that inspire, attract, and add value. With six diverse brands to choose from, no other manufacturer can match the range and selection of design solutions we offer.

Scale & Availability—We manufacture the products you need in the regions where you build and have the capability to scale up as your business grows.

Brand Equity—As the original manufacturers of architectural stone veneer, we take pride in having built North America’s most recognized brands and delivering high-quality architectural solutions through a breadth of combined portfolios. We can ensure you have the options to fit your budget and make your project look great.

Technical Expertise—Our national sales and technical teams put an unmatched depth of technical and practical expertise in your hands, from inception to installation. We will work with your architects, colorists and designers to realize their vision and follow through with your installation companies, participate in pre-construction meetings, trainings and site visits upon your requests.

Design Solutions—Through ongoing research and development, we not only design products that are innovative and beautiful but are engineered to solve design and installation challenges. Additionally, our collections have expanded

beyond stone to include modern profiles that resemble other popular materials such as tile, brick and wood.

National Footprint—Unlike most local & regional manufacturers, we have partnerships that span across the country, allowing for popular products to be stocked on the ground in each market. No matter where your project is located, we will be able to execute locally to ensure success and consistency.

Project Ownership—We have the resources to make your project become a reality. We take pride in not only working at the corporate level with our dedicated national team, but also bringing value at the local level with more than 90 sales and technical resources focused on supporting your projects. From specification and technical detailing, to bidding, to installation support, we will be there every step of the way.

Code Acceptability & Certifications—The Westlake Royal Stone Solutions collection of architectural stone veneers are engineered to meet or exceed specifications for all major code approvals.

About Westlake Royal Building Products
